

ABA:77620804

CA2/CA3

This is a fluorescence microscopy image of a brain section, specifically highlighting the CA2/CA3 region. The image is divided into four quadrants by a white crosshair. The left half of the image shows a bright, irregularly shaped area with a yellowish-green core, indicating high fluorescence intensity. The right half of the image is dark, indicating low fluorescence intensity. The text 'ABA:77620804' is in the top left, and 'CA2/CA3' is in the bottom left.
