

ABA: 79536685

SCN

The image displays a coronal cross-section of a brain. Two prominent, blue-colored, lobulated structures are visible, positioned symmetrically on either side of a central vertical line. The left structure is associated with the label 'ABA: 79536685' in the upper left corner, and the right structure is associated with the label 'SCN' in the lower left corner. The background is black, and the structures have a textured, almost cellular appearance.
