The image displays a coronal slice of a brain scan. The brain's structure is visible, with the two hemispheres separated by a vertical midline. A horizontal line crosses the brain at its base. The color scale indicates varying levels of signal intensity, with the most intense areas (yellow/green) located in the central and posterior regions of the brain. The text 'ABA:79568028' is positioned in the upper left corner, and 'Pn' is in the lower left corner.
