

ABA: 80342134

VMH

The image shows a coronal section of a brain. A large, irregularly shaped region in the center is highlighted in a solid blue color. This region is roughly symmetrical about the midline. The surrounding brain tissue is shown in grayscale. A vertical white line runs through the center of the brain, and a horizontal white line runs across the middle. The blue region is located in the ventral medial part of the brain, consistent with the label 'VMH' (ventral medial hypothalamus) in the bottom left corner. The text 'ABA: 80342134' is in the top left corner.
